Menzies School of Health Research is Australia’s leading medical research institute dedicated to improving the health and wellbeing of Indigenous Australians. For 30 years, Menzies has been a beacon for development, sustainability, health, economic advancement and transformation.

Transformative research projects with long-term objectives

Effectively communicating our research to practitioners, government and community

Working with partners and communities to develop and implement new treatments and affect change

Creating career pathways in health for Indigenous Australians

Pioneering global and tropical health work extending into 20+ countries across the Asia-Pacific

150+ research projects and programs

60+ remote community partnerships across central and northern Australia

Menzies holds a 5 out of 5 Australian Government Ranking for Excellence in Research
Help us close the gap

Investment in health research is an essential part of closing the gap in health and life expectancy between Indigenous and non-Indigenous Australians.
