

# In this together

## National Reconciliation Week 2020

27 MAY – 3 JUNE

## Menzies Hep B team

What does reconciliation week mean to you and your work at Menzies?

An opportunity to reflect on the work we are doing at Menzies and ensure we are sticking with our team principles of “for the community, by the community and with the community” in order to continue to move forward in a true partnership.

What does In this together mean to you?

Ensuring everyone has something to contribute and that we use everyone's skills to their maximum potential and put it all together to get the best outcome for everyone.

How do you work together with communities to make better health outcomes?

By putting Aboriginal people at the front and centre of everything we do from the inception to the conclusion of the journey.

How do you build relationships that value Aboriginal and Torres Strait Islander peoples, histories and cultures?

Being guided by action research principles, listening, respecting, valuing, incorporating the knowledge and developing together in an iterative way overtime.
