

Communication

Health Professionals & Aboriginal & Torres Strait Islander Cancer Patients

Gwenda Gilligan

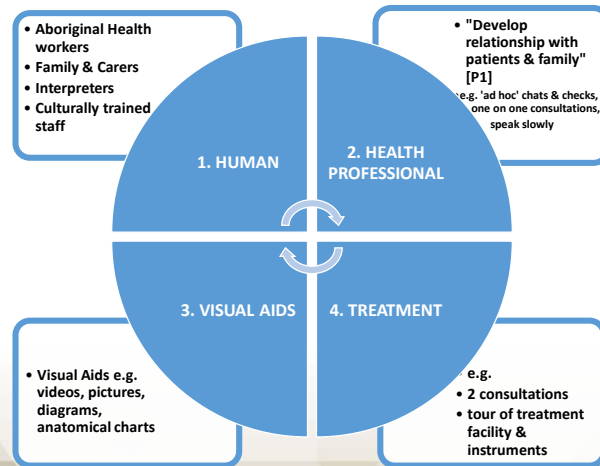

BA Dip Ed, MCA, MClIn Psy
 gwendamary.gilligan@cdu.edu.au

Communication difficulties: Health Professionals

“Develop relationship with patients & family”

Strategies & resources: usefulness

Conclusion

The most valuable communication resource

Is to build a relationship of trust between health professionals and patients and to engage Aboriginal Health Workers to facilitate discussion and to address the practical and personal concerns of the client.

Participation in this research is on-going. Please consider taking the survey and engaging in an interview. You can register at the Menzies booth. Gwenda will be there each day at lunch time to assist you and to answer any questions you might have.
